

15th FICCI HIGHER EDUCATION SUMMIT 2019 *Global Conference & Exhibition*

‘Creative Economy • Nation Building : *Higher Education as the catalyst*’

Masterclass I : DATA ANALYTICS FOR INSTITUTIONAL EFFECTIVENESS AND EXCELLENCE

November 26, 2019, 10:00 am – 12:00 am
Conference Room, FICCI Federation House, New Delhi

This specialized masterclass is meant for data driven Indian academic leaders who have the passion and desire to explore how their institutions can respond effectively and promptly to massive institutional and external changes by leveraging the use of data in an efficient manner. This masterclass, which is inspired by QS’s EduData Summit, is a small preview to the wealth of information which institutions will share in the upcoming edition of the summit at the UN headquarters in June 2020. The aim of this masterclass is to provide case studies for universities to be more innovative, competitive and enable better decision-making abilities based on the use of data; be it data on student learning outcomes, faculty assessment or research metrics, various other data points which will bring about institutional data mindset, and support benchmarking, ratings and rankings.

Convener : QS Quacquarelli Symonds

Special Remarks by Dr A K Nassa, Member Secretary, NBA

Moderated by Mr Ashwin Fernandes, Regional Director – MENA & South Asia, QS Quacquarelli Symonds & CEO of QS IGAUGE Indian College & University Ratings
